GROWERS OF

WHOLESALE
ONLY

Choice Specialties for
NURSERYMEN AND DEALERS.

FOR THE SEASON OF 1895-96.

ROSES—An immense stock of strong plants on own roots. Grown on new land and especially fine. Try the **Margaret Dickson** with your agents. It is the finest white H. P. yet introduced. Plates and Circulars supplied.

CLEMATIS—The **Trio**—Jackmanni, Henryii and Romona. **MME. ED. ANDRE**, the new red. **GRAVEOLENS**, yellow.

ORNAMENTALS—A large assortment, including especially fine lots of **Hydrangea P. G.** (Tree-form and Bush), **Japan Snowballs**, **Tea's Weeping Mulberry**, **Ampelopsis Veitchii**, **Paeonies**, etc. Our price on **Japan Snowballs** is too low to publish and our plants the finest. An overstock this season. Better take advantage of it.

INDUSTRY GOOSEBERRIES—Extra fine plants for Spring at English prices. Also **Columbus**, **Downing** and **Houghton** for Fall delivery.

GRAPE VINES—An extra large lot. Grown with heavy tops as well as roots.

PEARS—Grown on *Pear land* and fine, *thrifty young stock*. They come out with the roots on them, too. *If you have not received our Trade List, write for it before placing orders.*

Grape Vines New Plums

MILTON PLUM. The earliest plum in the world; three weeks earlier than **Wild Goose**; more productive and better in quality.

TATGE PLUM TREES. Best plum in the world; having stood the winters of Northern Iowa for 16 years and bore heavy crops.

BOKARA PEACH No. 3. Best hardy peach. 25 per cent. hardier than any other peach.

Trees of the above for sale. CORRESPONDENCE SOLICITED.

SILAS WILSON CO.,
ATLANTIC CITY, IOWA.

—WE HAVE—

Just What You Want.

Downing and Houghton Gooseberries, **Currants**, **Older**, **Palmer** and other varieties of **Raspberries**, and **Strawberry Plants** by the million. Also a complete line of **General Nursery Stock**. Address:

THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 3.

HUNTSVILLE, ALA., DECEMBER, 1895.

No. 12

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE,

ALABAMA.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of 1,500 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

Mammoth Black Twig and Paragon.

EDITOR PRACTICAL NURSERYMAN:

Mammoth Black Twig and Paragon, said to be identical, in the Am. Pomological Society's Report for 1891, prove very distinct varieties, as you may note by comparing samples we send of the Paragon, of Tenn., and the M. B. Twig of Ark. Much of the confusion about these apples no doubt arises from their similarity in growth of tree. For some years we grew both sorts side by side in nursery row, noting but little if any difference; but in fruit the M. B. Twig proves far the finer apple. The great reputation of the M. B. Twig was first made in the vicinity of its origin in Washington Co., Ark. The writer lately returned from a three weeks' trip through the mountains of this section, where, near Rhea's Mill, is the original M. B. Twig tree, fruit from which was exhibited at the late meeting of the Ark. State Hort. Society at Fayetteville, together with some 40 or more separate exhibits of M. B. Twig from trees descended from this old original, and certainly finer apples were never shown anywhere. Indeed the largest apple shown was a M. B. Twig, weight 20 oz.; the next largest was a Shannon, weight 17 oz. The fruit exhibit from the old tree bore the following legend: "M. B. Twig from the original tree, 65 years old, 6 feet 8 inches in

circumference, 2½ feet above ground."

We examined fruiting trees of M. B. Twig in a large number of orchards; growers everywhere in N. W. Ark., who grow both it and Winesap say that the former bears earlier, does not drop so badly and bears much fuller than Winesap. The latter is falling much into disfavor there because of light crops and dropping. Mr. Poole, perhaps the leading orchardist of Ark., has 11,000 trees of M. B. Twig, and plants it as his leading Winter apple: his four year trees yielded a half bushel each of No. 1 fruit. The M. B. Twig should be planted on thin soils, where it bears earlier and the fruit is higher colored. When grown on heavy, rich soils the color is not nearly so bright and solid a red, and trees longer coming into bearing. There is certainly no better variety to plant on the poorest land; indeed we saw very fine M. B. Twig on soil entirely too poor for the other sorts planted on it.

The Ark. Black, by the way, is another Lawver, or Del. red Winter, scabs badly and is a tardy and shy bearer. Some orchardists are chopping it out. On some locations however Ark. Black, like Lawver, is doing well; will no doubt be safe to plant where Lawver succeeds.

C. M. STARK.

Louisiana, Mo., November 15, 1895.

Introducing Rare Plants or Fruits.

Raisers of new varieties of plants or fruits, sometimes complain, with some justice, that they are badly recompensed for the labor and trouble of raising new things; but the introducer may complain of this as well as the original raiser. One of our most energetic nurserymen, residing at Augusta, Ga., speaks, in a letter, of the time and trouble it takes to make the public acquainted with the value of new things. Many nurserymen raise a stock, only to burn it, and then give up trying again; but the correspondent, above referred to, states that although they may have to raise and burn, year after year they continue to raise, because the time generally comes, when after years of pushing, there is a profitable demand. In order to create this demand, they often have to give away numbers in every direction, so that the public may be made acquainted with the value of the article.—Meehans' Monthly.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

THE HUNTSVILLE WHOLESALE NURSERIES

In this issue of our price list we show the numbers, sizes and prices in all varieties remaining unsold at this date. Correspondents should, however, give us the privilege of substituting varieties, sizes and prices, as far as it can be allowed, if in a hurry for shipment, as we do not substitute, as a rule, without permission.

We are now shipping North for cellar-ing. Northern customers wishing to lay in a supply for Spring, should correspond with us early.

We have sold a good many Kieffer pears since the last issue of our price list, but it will be seen by referring to our quotations that we have plenty more, and we are making the prices very low to secure orders this Fall. We expect to advance prices in Spring. We will, however, accept orders now at these prices for Spring delivery or Fall shipment.

We believe cherries will sell for more money in Spring; but we will enter orders at present prices for Fall shipment or early Spring delivery. Prices may be advanced at any time.

Business with us has increased considerably over last year. Even at the low prices prevailing on some things, our orders aggregate one-third more in value. The prospects for Spring trade are also much brighter than last year.

Buyers can nearly always purchase at lower figures in the Fall, and we do not think the present season any exception to the rule.

We have a very fine lot of Orange quinces, two years old. See grade and quotations.

The Baltimore Belle and Queen of Prairie Roses we offer at \$35 and \$30 per 1000 are very fine plants,—as fine as can be bought anywhere. Will send samples if desired.

We have a few thousands of Japan pear stocks for sale. No. 1 at \$10.00 per 1,000.

Note special prices on Satsuma plums two years old. We have a fine lot grown at our branch nurseries at Biloxi, Miss., which we will sell very cheap.

THE HUNTSVILLE WHOLESALE NURSERIES.

Distributing Points.

We are making St. Louis, Mo., Cincinnati, Ohio, Rochester, N. Y., and Philadelphia, Pa., distributing points; and will deliver free of freight charges to transfer companies, at either of these places; all orders in car lots, or in less than car lots, to be shipped from Huntsville on the dates named below:

For St. Louis—Early shipments from September 20th to October 10th; late shipments from October 25th to December 10th.

For Cincinnati, Rochester and Philadelphia—In Spring.

The orders will be packed in Huntsville, and those for less than car lots will be combined to make up car lots and shipped to these points and distributed promptly to the various railroads centering there. This plan insures quick time and low freight rates. Orders for less than car lots must be boxed at Huntsville. The price of boxes will be additional.

This offer to deliver to distributing points free of freight charges will not apply to less than car-lot orders, if shipment is required at other than the above named dates; but we will ship car-lot orders at any time after September 20th anywhere desired within the territory tributary to the cities designated, and will deduct from the bill the cost of freight to the nearest distributing point.

See reduced prices on Triumph peaches, June Buds, 3 to 4 feet, under quotations for peaches.

We have a large stock of Prunus Pisardii on Marianna stocks; fine low heads, two years old. Write for special prices.

We will make special prices on Orange and Meech quince grafts, one year old, in thousand lots, for "Lining Out." Our stock is pure and true. We propagate them only by grafting, and they are not as liable to mixture as they are when budded.

The Mulberries we offer at Biloxi, Miss., are now in good condition to ship. Our stock is large and fine.

The Huntsville Wholesale Nurseries.

Grown from cuttings at our branch nurseries, Biloxi, Miss. Orders required before December 1st will be charged double these prices. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. The extra and No. 1 plants will have three or more branches and will be cut back to 30 to 36 inches. The roots are very fine.

ROSES FOR "LINING OUT"—One half the price of No. 1.

JAPAN PEAR STOCKS—No. 1 very fine, @ \$10.00 per 1000.; No. 2, \$8.00 per 1000.

ORANGE AND MEECHES' QUINCE—In thousand lots, one year from graft, for "Lining out," cut back to 10 inches, per 1000, \$25.00.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit directions as to shipping, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible.

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

Nurserymen's Caliper = $\frac{2}{3}$ SIZE.The above is a cut of this new caliper, which is made of brass and handsomely
nickle-plated; its size is such that it can be readily carried in the vest pocket.Its advantages are that it is always set, and a jar or fall does not alter the size,
as in the old opening and closing style. The size is plainly stamped on each notch,
making it unnecessary to measure with a rule after having gauged the tree. We
think that both nurserymen who are grading stock up for sale, as well as tree
dealers who are buying, will find this little article a most valuable addition to the
list of nurserymen's supplies. **PRICE 50 CENTS EACH.****W. F. HEIKES, Manager, Huntsville, Ala.****UNION PACIFIC SYSTEM.**

Biloxi Nurseries.

We offer a few special bargains at our branch nurseries, at Biloxi, Miss.

SATSUMA PLUMS.—One year, 1 to 2 feet, \$12.50.; 2 to 3 feet, \$25.; 3 to 4 feet, \$30.; 4 to 5 feet, \$45. per 1000. The small sizes will be very fine for "Lining Out."

JAPAN PEAR STOCKS.—One year, No. 1, \$10.; No. 2, \$8.00 per 1000. The best stock for growing pears upon in the South, as it does not leaf blight.

LeCONTE AND KIEFFER.—Pear trees, one year. See Price List.

ROSES.—The prices we quote on Roses are very low and the plants very fine. Our one year olds are equal to two year olds grown North. They must be dug in December and sent to Cold Storage. We pay the expense of storage and will until Spring for the Northern Trade. Orders should be sent in at once so that we can pack the assortment desired. Such as we do not have orders soon will be packed in Box Lots and offered in that way.

MULBERRIES.—See Price List.
